Pediatric Interim Care Center

Pediatric Interim Care Center, The Newborn Nursery, (PICC) is a one-of-a-kind, model program that provides specialized, 24-hour care for drug-exposed and medically fragile newborns. PICC brings babies safely through withdrawal from drugs, including heroin, cocaine, methamphetamines, methadone, and prescription drugs. The pioneering program also facilitates visitation for families, provides caregiver training, follows the babies after they leave, and offers a range of community outreach and education services. PICC is in Kent, Washington, 20 miles southeast of Seattle and is the only 24-hour care center serving drug-exposed infants throughout Washington State.
